## CSIS 1280: MULTIMEDIA WEB DEVELOPMENT

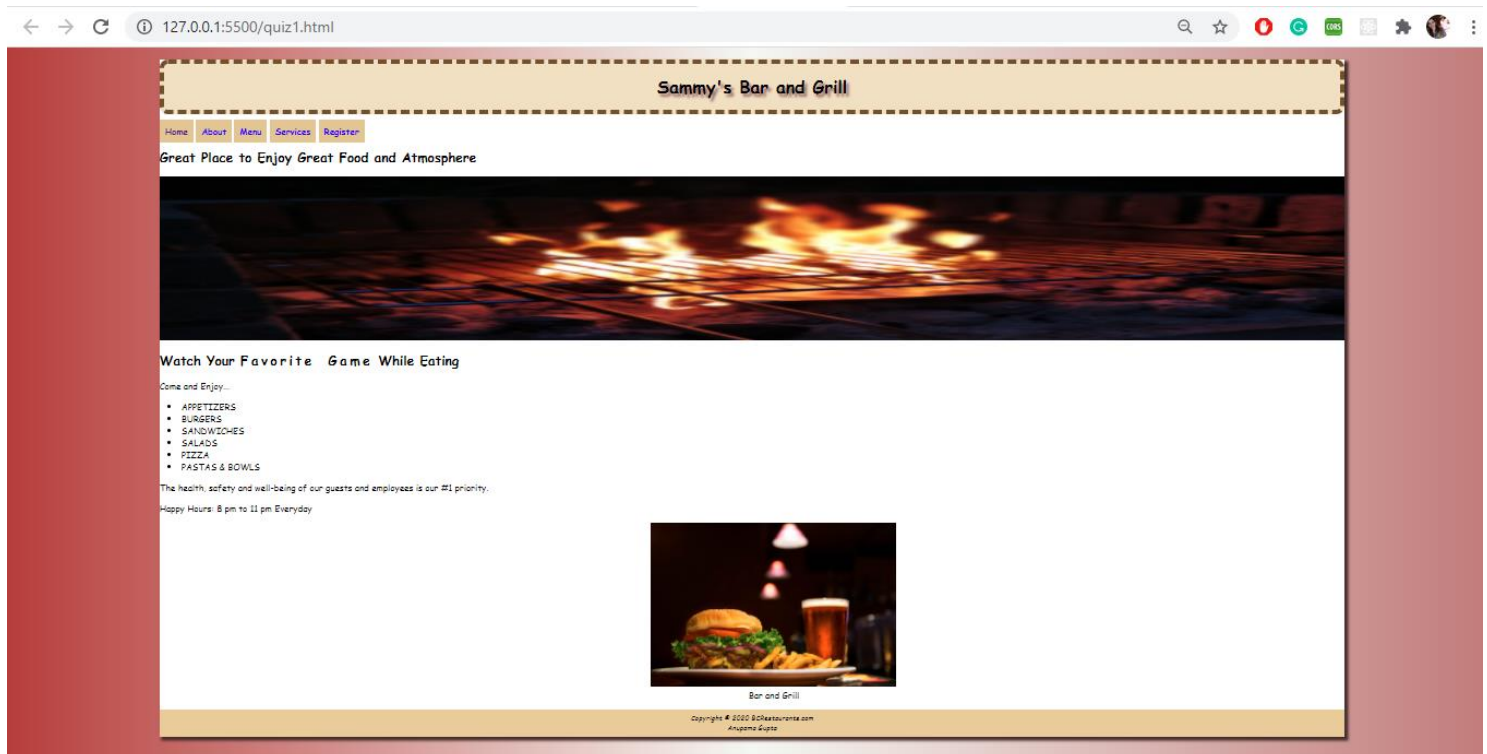

### Quiz 1 (January 26, 2021)

(7 % towards your Final Grade)

**Total Time: 80 minutes**

**Total Marks: 100**

Code only the home page (quiz1.html) for the following website. Place all the CSS in a separate file styles.css

#### Favicon (5 Marks)

- Associate the webpage with the favorite icon: favicon.png

#### Page Layout (10 Marks)

- Configure a centered page layout with 80% width and a white background
- Also, configure a box shadow effect on the container.

#### The body element (10 Marks)

- Add a style rule for the body element for configuring a CSS gradient with three colors stops #b13b3b, #f5f7f2, #bd7979 as a background image.
- Configure a font-family property (use a font of your choice).

#### The header element (20 Marks)

- Configure style declarations for
  - centered text having 8px wide dashed **rounded** border of color rgb(114, 81, 38)
  - 10px of padding, background color of rgba(211, 151, 38, 0.3)
  - text shadow effect in the color rgb(145, 99, 99) with a 5px offset.
  - 200% line height

### The nav element (10 Marks)

- Configure style declarations for
  - 10px padding, bold styled text and a background color of #e3c690
- Code a style rule to prevent the hyperlinks in the nav area from displaying the default underline

### The main element (15 Marks)

- The image “backgrndimage.jpg” that follows the text content “Great Place to Enjoy Great Food and Atmosphere” should be configured as a background image inside a <div> element. Set the height of <div> to be 300px. The background image should fill the space without repeating.
- Configure appropriate letter spacing and word spacing between words **Favorite Game**.
- The image “mainimage.jpg” (width 450 & height 300) that follows the text content “Happy Hours: 8 pm to 11 pm Everyday” should be inside the <figure> element and should also have a caption configured using <figcaption>. Don’t use <div> element for configuring this image and caption.

### The footer element (10 Marks)

- Configure declarations for
  - italic, .80em size centered text with
  - 0.5 em padding and background color rgba(211, 151, 38, 0.3)

All the images including the favicon must be placed in a subfolder named as images.

All CSS style rules must be placed in one external style sheet only.

You must validate your HTML and CSS files.

### Submission:

- Your submission should be a **single zip file** named **Quiz1\_StudentID** that contains your entire website.

### Rubrics for Grading:

- 80 Meeting all the requirements
- 10 CSS Coding Validation
- 10 HTML Coding Validation

**Note:** Every coding validation error will incur a loss of 1 mark
